

Blue Badge holder consultation webinar

Low Emission Zones (LEZs) are to be introduced in **Aberdeen, Dundee, Edinburgh** and **Glasgow by mid-2022**. Vehicles carrying Blue Badge holders will be exempt from the requirements.

Transport Scotland is developing an online scheme for Blue Badge holders to register vehicles they are travelling in, with the option to register vehicles via a call centre.

Join the online session to find out about LEZs, what options are available to ensure vehicles carrying Blue Badge holders are registered as exempt, and share your views on the registration scheme with Transport Scotland.

A range of Transport Scotland staff working on the project will be there to hear your views on the proposed scheme.

Blue Badge LEZ Exemption - Consultation Event

Thursday 9 December 2021

12.15pm – 1.45pm
